

**1B Household Composition – Baseline**

----- **PB1A** -----

**Village #**

**HH #**

--	--

--	--

<b>PB1B</b> Start Time	<b>PB1B</b> [            ]
<b>PB1C</b> Respondent's name	<b>PB1C</b> [            ]
<b>PB1D</b> HH member ID #	<b>PB1D</b> [            ]

**Household Composition**

Now I would like to ask you some questions about all of the people who usually live in this house. (*Definition of the household: all the people who lived and ate in this house for at least 6 months out of the last 12 months and children who are studying away from home and are supported by members of this household.*)

<b>PB2</b> Total number of household members ( <i>Enumerator answer this question after you have found out about all of the household members</i> )	<b>PB2</b> [            ]
---	------------------------------

**PB3** Please tell me the nickname (**PB3A**), first name (**PB3B**) and last name (**PB3C**) of each household member. *Also record nickname on 1R HH Roster.*

*When the names of each household member have been recorded, ask questions **PB3D** – **PB3N** for each person.*

**PB3D** Is this person male or female? (*1 – male, 3 – female*). *Also record sex on 1R HH Roster.*

**PB3E** What is \_\_\_'s relationship to the household head? This person is the household head's \_\_\_\_\_. (*See codes on next page.*) *Also record relationship on 1R HH Roster.*

**PB3F** What is \_\_\_'s marital status? (*See codes on next page.*)

**PB3G** How old was \_\_\_ on their last birthday? (*If 3 years of age or less, skip to **PB3M**.*) *Also record age on 1R HH Roster.*

**PB3H** Is \_\_\_ in school now? (*1 - yes, 3 – no.*)

**PB3I** What is the highest grade of school that \_\_\_ has completed? (*See codes on last page of this module.*)

**PB3J** What system of grades was in place when \_\_\_ went to school? (*See codes on next page.*)

**PB3K** Has \_\_\_ received any adult education? (*1 - yes, 3 – no.*)

**PB3L** Besides formal schooling has \_\_\_ received any training? (*1 - yes, 3 – no.*)

**PB3M** *Enumerator: record the census structure number of each household member.*

**PB3N** *Did \_\_\_ sleep in this house for at least 15 days out of the last 30 days? (1 – yes, 3 – no, because they were away at school, except for weekends/holidays, 5 – no, because they were away working, except for weekends/holidays, 7 – no, because they were away for another reason.) Also record the answer to this question on the 1R HH Roster.*

**PB2** *Enumerator: After you have found out about the names of all of the household members write down the total number of household members above at **PB2** – the data entry program needs this information.*

**2B. Household Assets – Baseline**

<b>AB10</b> Stop Time	<b>AB10</b> [       ]
-----------------------	--------------------------

*Enumerator: Record the number of assets owned on the 3R. Agricultural Asset Roster after the interview. Record the total number of assets owned by category on the Roster even if you have used more than one line to record the information about these assets in the table above.*

**4B. Landholding Baseline**

<b>RB1B</b> Start Time	<b>RB1B</b> [            ]
<b>RB1C</b> Respondent's nickname	<b>RB1C</b> [            ]
<b>RB1D</b> HH member ID #	<b>RB1D</b> [            ]

<b>RB2A</b> Does your household own any plots of land? (1 – yes, 3 – no. If no skip to <b>RB2C</b> .)	<b>RB2A</b> [    ]
<b>RB2B</b> How many plots of land does your household own?	<b>RB2A</b> [    ]
<b>RB2C</b> Does your household use any plots of land that are owned by someone else? For example, do you rent any land or use any land for free? (1 – yes, 3 – no. If <b>RB2A</b> and <b>RB2C</b> are both 3 go to next section.)	<b>RB2C</b> [    ]
<b>RB2D</b> How many plots of land does your household use that are owned by someone else?	<b>RB2D</b> [    ]

Ask questions **RB3A** and **RB3B** for each plot of land that the household owns or uses. Use the respondent's definition of plots for questions **RB3A** and **RB3B**.

**RB3A** What is the current ownership status of this plot? (A – owned and operated by household, B – owned by the household but used by someone else for pay, C – owned by the household but used by someone else for free, D – owned by somebody else, the household pays rent (cash or in-kind), E - owned by somebody else, the household uses for free, G - other (specify). Record answer in Table.)

**RB3B** What is this plot currently being used for? ( A – crops, B – fish/shrimp, C – orchards, D – other trees, E – grazing/livestock, F – house plot, G – business, H – community use, I – fallow J - other (specify). Record answer in the Table).

**RB3C** Enumerator: record number of plots according to survey definition (only one ownership status for each survey plot). The answer should equal the number of responses to **RB3A**.)

Plot #	<b>RB3A</b> Current Status	<b>RB3B</b> Current Use	<b>RB3C</b> # of Survey Plots

*Enumerator: use the space on the 4R Land – Plot Roster to make a map of the plots and renumber them so that each plot has only one ownership status. Map all of the plots including the house plot. Procedures for renumbering:*

- 1) if the respondent's plot has only answer for RB3A -- ownership status -- then use the plot number from above. If plot #3 is code A it will continue to be plot #3.*
- 2) if the respondent's plot has more than one answer for RB3A, then use the plot number from above as the first number and use letters (A, B, C ...) for each ownership status. If plot #3 is code A, B, E then the new numbers will be: 3A, 3B, 3C*

*Enumerator: when you have finished drawing this map, please have the respondent identify all of the plots on the aerial photo map (also attached to the 4R Land – Plot Roster). Record the survey plot numbers on the map.*

<b>RB4</b> <i>Enumerator: how many plots does the household own and use according to the survey plot definition? (Answer should be the sum of column <b>RB3C</b>.)</i>	<b>RB4</b> [                    ]
--	--------------------------------------

*Enumerator: Fill out a 4F1 Plot Form for each of the survey definition plots.*

**5B. Cultivation – Baseline**

----- **CB1A** -----

**Village #**

**HH #**

--	--

--	--

<b>CB1B</b> Start Time	<b>CB1B</b> [            ]
<b>CB1C</b> Respondent’s nickname	<b>CB1C</b> [            ]
<b>CB1D</b> HH member ID #	<b>CB1D</b> [            ]

<b>CB2A</b> Are you or members of your household currently growing any crops? (1 – yes, 3 – no. If no skip to next section.)	<b>CB2A</b> [            ]
<b>CB2B</b> Enumerator: determine how many crop – plots the household is currently cultivating. The map of plots that you made for the Landholdings module will probably helpful. For each crop – plot administer a 5F1 Cultivation: New Crop-Plot Form.	<b>CB2B</b> [            ]

*Some crop – plot examples:*

- 1) *The farmer has 2 plots. He is growing rice on each plot. There are 2 crop - plots.*
- 2) *The farmer has 2 plots. He is growing rice on one plot and rice and cucumbers on the other plot. There are 3 crop – plots.*
- 3) *The farmer has 4 plots. He is growing no plots. There are 0 crop – plots.*
- 4) *The farmer has 4 plots. He is using 3 of them for fish and shrimp and growing beans and cassava on the 4<sup>th</sup> plot. There are 2 crop – plots.*

*When you are done administering the New Crop-Plot Forms go to the next section.*

**7B. Inventory of Stored Crops – Baseline**

**19B Income - Baseline**

----- YB1A -----

<b>Village #</b>	<b>HH #</b>
<input type="text"/>	<input type="text"/>

<b>YB1B</b> Start Time	<b>YB1B</b> [            ]
<b>YB1C</b> Respondent's nickname	<b>YB1C</b> [            ]
<b>YB1D</b> HH member ID #	<b>YB1D</b> [            ]

Now I would like to ask you some questions about what your household's income was over the past 12 months.

<b>YB2</b> ( <u>Gross Revenue</u> ) What was your household's total gross income over the past 12 months?	<b>YB2</b> [            ]
---	------------------------------

**Enumerator**

(The goal of this section is to come up with an accurate estimate of the households (include all the household members!) income over the past 12 months AND to get as much detail as possible about the sources of the income. Some respondents will be able to tell you what their gross revenue is and then will be able to break it out by source below. Other respondents will know how much they received by source and need help adding it up to get a total. Do not worry about asking questions YB2 and 5 in order. Your calculators will be helpful!)

(The respondent may need help – try asking about revenues last month, then ask if last month was typical – if it is typical, tell the respondent what 12 times the monthly figure is, see if they agree with the amount – should it be higher or lower? By how much? Keep going until the respondent agrees with your figure. Remember this is supposed to be an estimate of the total gross income of the household – all the people who live and eat in the house for at least 6 months out of the year. Remind the respondent to include the value of home produced and consumed items -- rice, for example. Please use the following table to help you and the respondent figure out what revenues for the past year are – as much as possible fill in the table below, but do not worry about it if you do not figure out everything.)

**YB3** Has anyone in your household received any of the following payments (ask about each payment in the table below) during the past 12 months? 1 - yes, 3 - no

**YB5** (If yes) How much did they receive over the past 12 months? (If the respondent knows revenues sources by broader categories than the ones listed below, use column

**YB4** to record the category. For example, if revenues for rice farming and other crops are 20,000 Baht, then record 20,000 Baht in column **YB5** row A, and in column **YB4** record A, E to indicate that the 20,000 Baht is for revenues from rice farming and other crops.)
