

A8 Household expenses on consumption

Explanation For A-B, in case the respondent answers in term of per month, divide the answer by 4.3 and then record the answer in Table.

In case the cost of 2 items cannot be separated, record the codes of both items in the "not separatable" column and specify the values of 2 items equally.

Example: Expenses on alcohol and cigarettes are 2000 Baht per month, record as follows:

| Code | Items | note | Not separatable | Purchase | Produce | Receive | Frequency |
|------|---------------------|--|-----------------|----------|---------|---------|-----------|
| C | Alcoholic beverages | Expenses on alcohol and cigarettes 2000 Baht per month | C,D | 2000 | 0 | 0 | month |
| D | Tobacco, cigarettes | | C,D | 2000 | 0 | 0 | month |

Ask HC1-HC3 about household consumption in an ordinary month and record in Table 1.

HC1: How much does the household buy or consume these items? (In case of no consumption, record "0")

HC2: HC2: How much does the household produce these items? (In case of not produce/receive, record "0") Excluding consumption of product/goods in business and livestock sections

HC3: How much does the household receive these items? (In case of not received, record "0") Excluding consumption of product/goods in business and livestock sections

Table 1

a8_table1

| | | | HC0 | HC1 | HC2 | HC3 | freq |
|------|--|------|-----------------|-----------|----------|----------|-----------|
| Code | Items | Note | Not separatable | Purchased | Produced | Received | Frequency |
| A | Rice, glutinous rice, flour, product from flour | | | | | | week |
| B | Expenditure on food, non-alcoholic beverages | | | | | | week |
| C | Alcoholic beverages | | | | | | month |
| D | Tobacco, cigarette | | | | | | month |
| E | Utilities such as water, electricity, telephone and internet | | | | | | month |

Table 1
